

COMPANY PRESENTATION

LAST UPDATING YEAR 2018

Company presentation

Company

A4PM is a multi-disciplined project management company that has the skills, focus and discipline to ensure that your projects are not only completed on time and within budget, but fully achieve their intended purpose.

A4PM uses a team of highly experienced consultants and certified Project Managers professionals that will promote success for your Company's projects.

Our reputation depends on it.

A4PM can also offer a project management training that will deliver value within your organization.

Our goal is to give you a competitive advantage through improved project planning and control techniques.

Our flexible combination of project management services training is tailored to meet the individual needs of your organization.

Company presentation

Methodology

If your projects are not realized in the time budgeted

- if economic resources are being used more than expected
- if instances of the customer are met only in part

then, the solution is a good project management discipline

The project management increases the value of your company / organization because all the work you have planned in detail from the beginning and the constant monitoring of the project, allows to

Company presentation

A4PM is an innovative Project Management company that manages with success projects from concept to delivery.

Starting from:

- An enhanced planning, a right operating budget, a wise assessment of initial risk and a successful team.

These are the starting point in order to have that:

Company presentation

- The execution of the project will be fast and without problems (because everything was planned!).
- Meanwhile, the monitoring and control, make stable and robust implementation of the project.
- The closure activities, as well as delivering on time and with excellent results achieved, collect and archive the lessons learned in order to be more competitive in the next projects to manage!
